dream work*

CATAWBA 1A KD

HX & ECT Crews

Ben Vaughn, Curtiss
Albany, Keith Owensby,
Robert Knox, Avery
Green, Johnathan Green,
Steve Joiner, Dexon
Lively, Russ Williamson,
Jeremy Bajenski &
Brayton Oakes

A big thank you goes out to our HX & ECT Crews who worked the 1A KD project at Catawba. These crews worked seamlessly together to ensure the project was done as safely and as quickly as possible. They were able to keep with the plant's timeline by completing hot turnover in the field and utilizing cross trained team members to complete both HX and ECT tasks.
AWESOME JOB GUYS, WAY TO WORK TOGETHER!!

Know someone interested in
joining the Merrick Group?? Don't
forget about the referral program!!

PROCEDURE USE & ADHERANCE

- Be sure the procedure is the most current revision
- Ensure everyone involved in the task understands the procedure's overall purpose
- Review all prerequisites, initial conditions, instructions, limits & precautions
- Take the procedure document to the job site with you when required
- Use the procedure according to its designated level of use
- Follow the procedure as written without deviating from its intent
- Ensure that a step is actually complete prior to signing it off

STEPS FOR PLACEKEEPING

Circle the
step to be
performed

Read the
step aloud

Perform
the step
as written

Slash the
circle once
step is
complete

Don't slash
the circle
until step is
complete

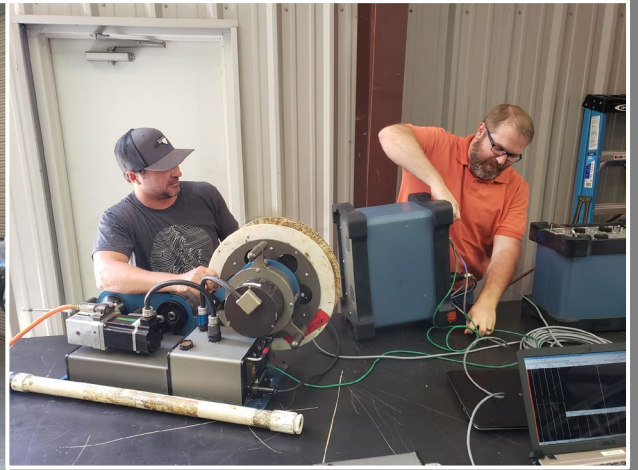

- If the step cannot be performed as written
- If injury to workers or damage to equipment will occur if procedure is used as written
- If use of the procedure will result in incorrect or unsafe conditions
- If the procedure is technically incorrect
- If unexpected results are achieved after performing the step
- If the procedure conflicts with another procedure

AVOID
PERFORMING
A TASK
WITHOUT
KNOWING IN
ADVANCE
WHICH STEPS
ARE THE
CRITICAL STEPS

AVOID
MARKING
STEPS N/A
WITHOUT
AUTHORIZATION
