the Merrick Group?? Don't forget
about the referral program!!

More info regarding your schedule for the
Fall Season will be coming soon!!

THANK YOU

"Thanks for supplying dedicated people with a work ethic that is professional on all aspects. My success always depends on them and they haven't let me down yet. Scott and Keith go above and beyond. Thanks again."
Monty Hall, Harris Oversight

shout out

"As we head into our final day of the Montour outages, I'd like to thank everyone from Merrick involved in executing our work scopes. Numerous skill sets were required for our success, including the ability to react to emergent findings."

"I would like to formally recognize the efforts of Michael, Justin, Kevin, and Wayne during the coating and re-installation of the CCW heat exchanger waterboxes. I witnessed the team overcome numerous minor issues to make this installation happen right. Other crews would not have worked with the strong purpose of finishing the entire work scope by 1800 on Friday."

Michael Muldowney, Montour Oversight

Left: Andy Mills cleans the Turbine Lube HX at Brunner
Below: Jeremy Bajenski probe handles at Montour
Right: Steve "Banjo" Joiner & Dan Perak inspect the Glam Steam at Harris

Josh Sano & his beloved van at Montour

Below: Harris ECT Dayshift Acquisition
