"The Merrick Crews did an outstanding job on all Outage Work. Great Leadership, all of the crew members are a pleasure to work with... Efficient, Safe work practices, all jobs are left in better shape than when the job was started. Truly an Old School way of working together. Thank You All."

- Chuck Foose, Maintenance Supervisor - Brunner Island

"Your guys did a great job for us at ENW for a first-time evolution. Your team did not incur any injuries, AR-CR's, HP violations, or any other unnecessary focus on your work group. We appreciate your work ethic and the ability to adapt to the changing work scope at a moment's notice.

Thanks again." - Mike Akre, Columbia Oversight

"Thank you guys for another job well done! Additionally, the condition your guys left the bay we had for them was exceptional, it was definitely a model of how all craft on site should keep and leave their area. Again, always a pleasure, thanks again." – David Price, Site Services Manager – Watts Bar
